

JAIMANTI LIFECARE

JAIMANTI LIFECARE MEDICAL DEVICES PVT. LTD.

Plot No.- J-978, 979 RIICO Industrial Area, Chopanki, Bhiwadi, The Tijara
Distt. Alwar (Rajasthan) India- 301019

Email: jaimantilifecare@gmail.com | Website: www.jmlifecare.com

Customer Care No. +91-8467837852, +91-9862782078

(An ISO 13485 Certified, CE & GMP Compliance)

I.V. Cannula (Flon/On/Neonates/....)

- ▶ Kink resistant & specially tapered FEP radio opaque catheter facilitates proper venous access
- ▶ Superior sharp needle ensures easy venipuncture with minimum trauma
- ▶ Flexible wing with optimum angle for better fixation on skin surface
- ▶ Double flashback technology ensure correct venipuncture
- ▶ Non return dilicon valve with color coded injection port for instant identification of catheter size
- ▶ Non-toxic, Pyrogen free & Sterilized by EO gas

Available Size: All Size & Type

Colour	Size	Diameter (mm)	Length (mm)	Flow-rate (ml/min)
Orange	14G	2.10	45	270
Grey	16G	1.70	45	180
Green	18G	1.30	32	80
White	17G	1.50	45	125
Green	18G	1.30	45	80
Pink	20G	1.10	32	54
Blue	22G	0.90	25	33
Yellow	24G	0.70	19	20
Violet	26G	0.60	19	19

Blood Transfusion Set

- ▶ Sharp spike with air vent stopper ensure easy penetration through rubber stopper of the blood bag
- ▶ Large drip chamber with 170µm blood filter facilitates smooth blood flow and optimum filtration of fibrin clots and other particulate debris
- ▶ Strong flow regulator facilitates proper control of fluid rate
- ▶ Transparent, soft & kink resistant tubing
- ▶ 18G hypodermic needle
- ▶ Non-toxic, Pyrogen free & Sterilized by EO gas

• Sterile • Single Use • Non- Pyrogenic

Infusion Set

- ▶ Extra strong spike with/without air vent facilitates easy penetration through rubber stopper of infusion bottle
- ▶ Flexible drip chamber facilitates rapid adjustment of desired fluid level
- ▶ Strong flow regulator facilitates proper control of fluid rate
- ▶ Available in both latex & latex free (Y-injection port) forms for extra injection administration
- ▶ ISO standard luer connector ensure leak proof connection with all type of luer fittings
- ▶ Global quality standard validated through bio-compatibility study conducted by Toxikon Corporation, USA

• Eco • Regular • Premium

Measured Volume Set (Burette Set)

- ▶ Burette chamber is scaled for accurate measurement of medication for critical and pediatric / neonatal care.
- ▶ Floating auto shut-off valve in the calibrated chamber.
- ▶ Automatically shuts off drain path when chamber is empty.
- ▶ Also acts as level indicator in the chamber.
- ▶ Clear soft cylindrical & calibrated measured volume chamber with bold graduations. ▶ 15 micron fluid filter.
- ▶ Available in size: 100ml, 110ml, & 150ml. ▶ Kink free transparent PVC tubing for easy visualization of flow.
- ▶ Tube length 150cm, 180cm, & 200cm. ▶ 6% taper luer as per international standard.
- ▶ Approximately 60drops/ml

• Sterile • Single Use • Non- Pyrogenic

3 Way Stop Cock With & Without Extension

- ▶ Fully transparent polycarbonate body for visualization of flow.
- ▶ 6% luer taper as per international standard.
- ▶ Arrow indication marks for indicating direction of flow. ▶ Also available with lipid resistant feature.
- ▶ Rotating dead space for accurate drug administration. ▶ Continuous flow channels.
- ▶ Tight covers for all ends. ▶ Pressure tested hydrostatically for upto 60PSI.
- ▶ Red & blue pegs for arterial and venous line identification, available on request.
- ▶ Rotation allowed for 360degree.

• Sterile • Single Use • Non- Pyrogenic

Extension Lines

- ▶ Available in two pressure variants.
- ▶ 6% luer taper as per international standard.
- ▶ Soft, frosted and kink resistant PVC tubing.
- ▶ Size 10cm, 25cm, 50cm, 100cm, 150cm, & 200cm.

• Sterile • Single Use • Non- Pyrogenic

Urine Collection Bag

- ▶ Urine Drainage System for short as well as long term Use.
- ▶ Super smooth kink resistance tube provided with universal tapered connector.
- ▶ Specially designed hook or hanger facilities for carrying, handling and holding the tube in upright position.
- ▶ Efficient non return valve prevents the back flow. ▶ Drainage Outlets System.
- ▶ Bag graduated in ml to indicate the quantity of urine collected.
- ▶ Transparent sheeting allows visual inspection.

Available Size 500ml 1000ml 1500ml 2000ml

Suction Catheter/Nelaton Catheter/Feeding tube/E.T. Tube

- ▶ For single use
- ▶ Distal end is open with two lateral eyes
- ▶ The large opening of the distal tip facilitates for easy and efficient removal of secretions from the airway
- ▶ Color coded connector ensures instant identification of catheter size
- ▶ Non-toxic, Pyrogen free & Sterilized by EO gas

Foley Silicon/Latex Catheter/Foley Balloon Catheter

- ▶ Used for short/long term urine drainage.
- ▶ Made for natural latex rubber.
- ▶ Silicon elastomer coated smooth surface for atraumatic catheterization.
- ▶ High strength polymer layer in the middle layer of the catheter ensures wider inner diameter and hence high flow rate.
- ▶ Minimizes encrustation and subsequent catheter blockage and failure.
- ▶ Smooth eye ultra thin highly elastic balloon and has non-return valve for trouble free inflation and deflation.

		Two Way								
		Size in FR	Baloon Capacity							
		6	3cc							
		8-10	3cc - 5cc							
		12-14	5cc -15cc							
		16-26	30cc - 50cc							
Three Way										
Size in FR	Baloon Capacity									
16, 18, 22, 24 & 26	30cc - 50cc									
14	15cc - 30cc									
FR	8	10	12	14	16	18	20	22	24	26
Colour Code	Black	Grey	White	Green	Orange	Red	Yellow	Purple	Dark Blue	Pink

Oxygen Mask & Nebulizer Mask

Set comprises of plain Oxygen Mask, Nebuliser Jar & Tubing. The Nebuliser Jar is specially designed for the delivery of drugs for tracheobronchial deposition. At gas flow of 8L/min, 70% of output will be particles of less than 5 microns.

Luer Lock

- ▶ Luer Lock is the thread stopper used to stop leakage when connected to infusion devices.
- ▶ White colour luer lock.
- ▶ 6% luer taper as per international standard.

• Sterile • Single Use • Non- Pyrogenic

Latex Surgical Gloves/Examination Gloves

- ▶ Hand specific, fully anatomically designed to reduce hand fatigue
- ▶ Natural high quality latex rubber for extra strength and elasticity provide additional
- ▶ production from surgical debris
- ▶ Textured, micro- roughened surface provides excellent wet and dry grip
- ▶ Beaded cuff ensures ease of donning and helps prevent rolling back
- ▶ USP grade absorbable cornstarch as lubricating agent

• Sterile • Single Use • Non- Pyrogenic

Mucus Extractor

- Used for aspiration of secretion from oropharynx in newly born babies to ensure free respiration
- ▶ Clear transparent container permits immediate visual examination of the aspirate
- ▶ Also Suitable for obtaining mucus specimen for microbiological examination.
- ▶ Low friction surface catheter is provided with open end silk smooth round up
- ▶ For trauma free insertion.
- ▶ Manufactured from transparent medical grade PVC. Sterile ready for use.

Size (FG)	Tube I. D. (mm)	Tube O. D. (mm)	Length (mm)
10	2.3	3.3	310
12	2.5	4.0	310
14	3.0	4.7	310

Umbilical Cord Clamp

- ▶ For clamping the umbilical cord of newly born baby immediately after the birth.
- ▶ Provided with security lock.
- ▶ Available with re-opening facilities.

Nasal Oxygen Cannula *(Twin Bore Nasal Oxygen Set)*

- ▶ For easy and efficient administration of oxygen.
- ▶ Soft twin prong nasal tips.
- ▶ With 200cms long multichannel tube.
- ▶ Size : Adult, Paediatric & Neonatal.
